22-23-24 JUNE

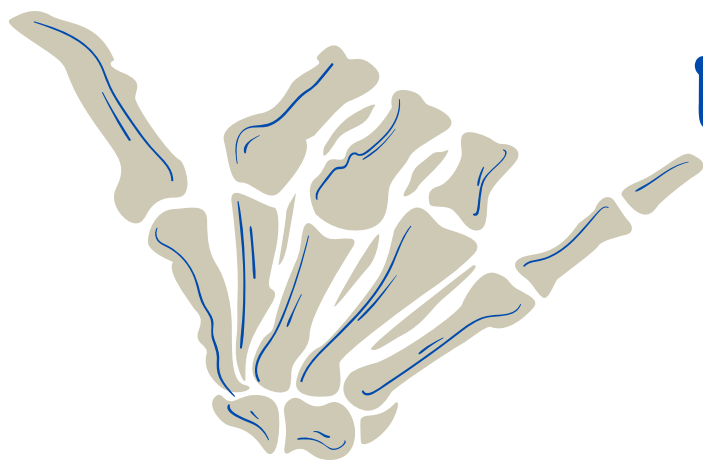

I-O-F-O-S

22 June 2023: Workshop

9:00

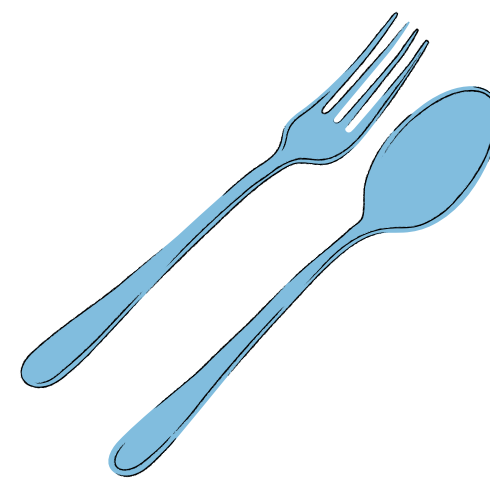

13:00

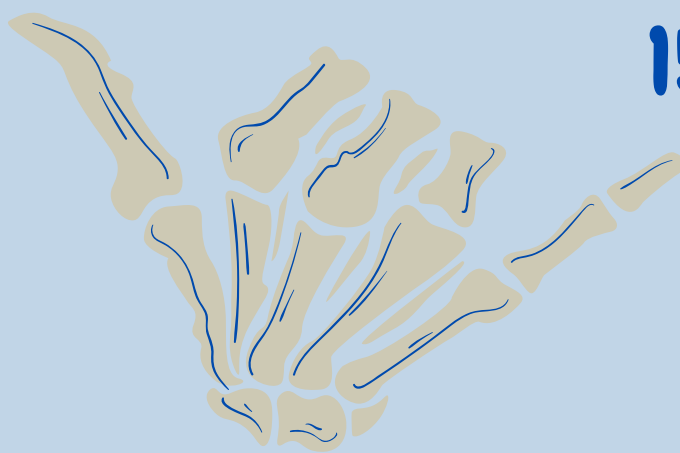

Agestimation Project:

Roberto Cameriere - Cehreli Burcak - Ayse Gulashi
Leonardo Catalini - Denise Piano

Lunch Time

14:00

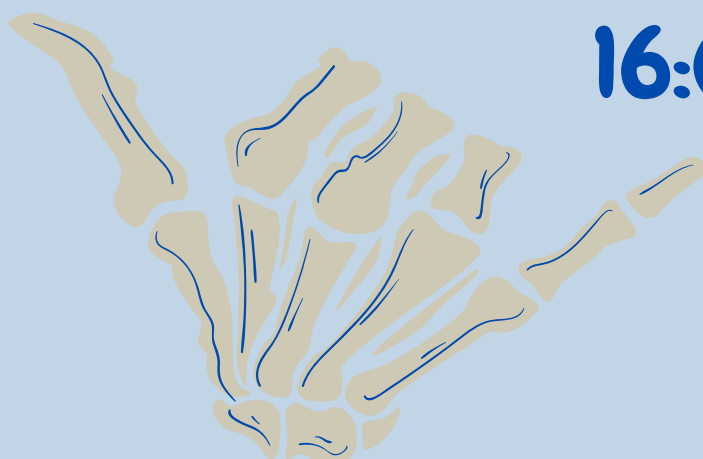

15:00

Oral Autopsy and Vistopsy

Ilenia Bianchi - Francesco Pradella

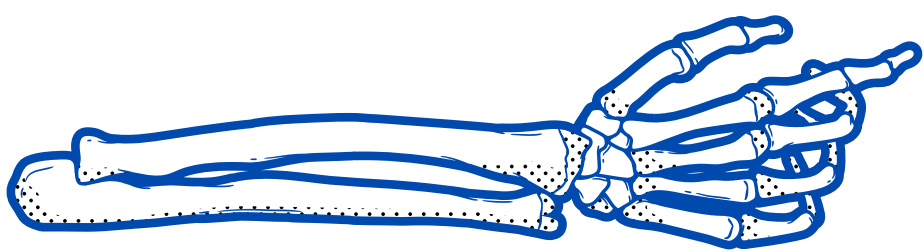

15:00

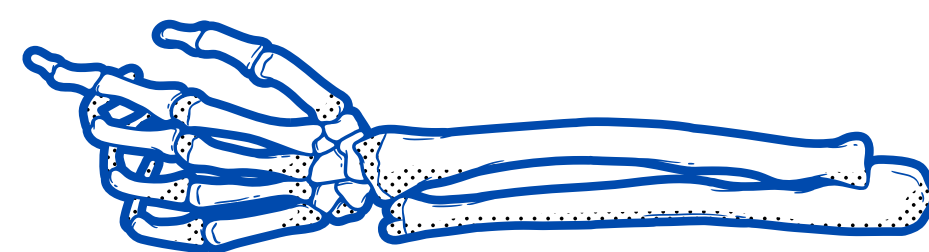

16:00

Vistopsy and human identification: medico- legal and translational perspectives

Simone Grassi - Martina Focardi

23 JUNE

09:00-9:30

Luca Brunese

Greetings

9:30-10:00

**Paola Frati
Francesco Introna**

Human identification: past and future in law and science

10:00-10:30

Stefano Vanin

New perspectives in forensic entomology

10:30-11:00

Hrvoje Brkic

Dental identification in mass disasters

11:00-11:30

Ricardo Da Silva

Forensic Odontology in Brazil and the challenge in human identification

11:30-12:00

Stefano De Luca

*Unaccompanied Minors
Automatic Forensic Age Estimation (UMAFAE):
applying artificial intelligence-based methods to estimate
legal age in undocumented minors*

12:00-12:30

Eugenia Cuhna

Steps ahead news trends in Identification.

12:30-13:00

Emilio Nuzzolese

*Viridentopsy process and Craniofacial
Superimposition technique in Human Identification*

LUNCH TIME

14:00-14:30

Akiko Kumagai

The effects of long-term steroid therapy on the results of dental age estimation using pulp/tooth ratio

14:30-15:00

Cristiana Pereira

The courts and Age Assessment by Forensic Odontology: A Past without Rules, the Present with Recommendations and a near Future with Standardization

15:00-15:30

Ivan Galic

Age estimation in two african sample

15:30-16:00

Valeria Santoro

Reverse Engineering in Forensic Investigation: a new approach to bite marks analyses

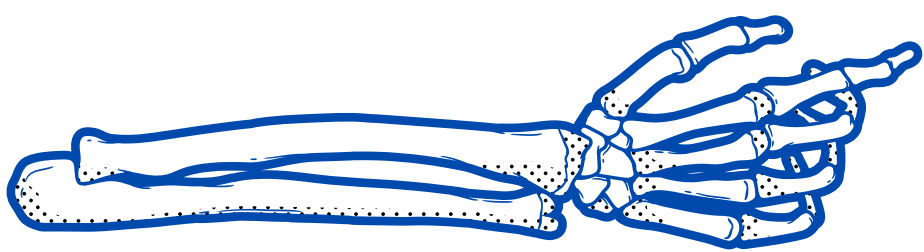

16:00-17:00

**Paola Frati
Francesco Introna**

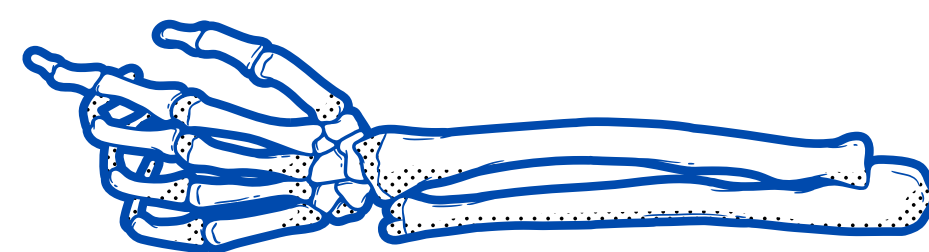

DISCUSSION MODERATOR

**Vilma Pinchi
Mariano Cingolani**

FREE COMUNICATION

24 JUNE

9:30-10:00

Luigi Ferrante

The statistics for the identification in the future

10:00-10:30

**Francesco Galassi
Elena Varotto**

Forensic Anthropology in Sicily: the FAPAB Research Center experience and future perspectives

10:30-11:00

Vilma Pinchi

What future for odontology in identification?

11:00-11:30

**Pietrantonio Ricci
Isabella Aquila**

The role of the forensic pathologist in the analysis of human remains: the Calabrian experience

11:30-12:00

Roberto Scendoni

The use of magnetic resonance (MRI) for age estimation purposes

12:00-12:30

Israel Soriano

Forensic Odontology and Unidentified People in Mexico

12:30-13:00

Serena Viva

Age estimation by pulp/tooth area ratio in canines: a study of a sample from a medieval thalassemic population

13:00-13:30

Vittorio Fineschi

Virtual autopsy and identification: how will it help us in the future?"

**Francesco De Micco
Mariano Cingolani**

DISCUSSION MODERATORS

**TERMOLI, MOLISE,
ITALY**

**UNIVERSITÀ DEGLI STUDI DEL MOLISE – SEDE DI
TERMOLI – VIA DUCA DEGLI ABRUZZI, 67, 86039
TERMOLI CB**
